CPI Nonviolent Physical Crisis Intervention Training

The Nonviolent Crisis Intervention® training program focuses on preventing disruptive behavior by communicating with individuals respectfully and with concern for their well-being. Verbal and nonverbal de-escalation skills encompass the main thrust of the training to prevent a child from acting out in a physical manner. The program teaches that physical interventions are to be used only as a last resort—when an individual presents an imminent danger to self or other. All physical interventions taught are designed to be nonharmful, noninvasive, and to maintain the individual's dignity. Follow-up debriefing strategies are also key components of the training program.

It is recommended that staff dress in comfortable clothing and shoes for practice of the physical interventions.

CPI trainings are 8:30-4pm with a ½ hour lunch. Lunch is on your own. You are HIGHLY encouraged to bring a sack lunch as the dining options in Tiskilwa are limited!

Please register online at www.bmpspeced.com.

Trainings provided by Certified CPI Instructors, Stacy Bland, Gloria Duffin, and Angie Pierson.

If you would like to schedule a CPI training program within your district (minimum of 10 participants) or are in need of a “refresher” training program to maintain CPI certification, please contact Stacy Bland at stacybland98@gmail.com.
